TECHINICAL DATA SHEET

Product Name	Sulfamic Acid	
Synonyms	Amidosulfonic Acid; Amidosulfuric Acid; Aminosulfonic Acid; Sulphamic Acid	
CAS No.	5329-14-6	
Molecular Formula	H₃NO₃S	
Molecular Weight	97.09	
Packing	25kg or big bags	
Quantity	22MT/20'FCL	
Specification	<p>Appearance: Colorless or white crystal</p> <p>Sulfamic acid: 99.5% min</p> <p>Sulfate: 0.02% max</p> <p>Water: 0.05% max</p> <p>Iron(Fe): 0.0006% max</p> <p>Water insoluble: 0.02% max</p>	
Application	<p>-For metal cleaning, removal of the oxide of the metal surface;Used for the sterilization of boiler cleaning and water treatment.</p> <p>-Also be used for fiber, wood, paper bleaching conversion, remove nitrite in tobaccosalt, oil and mine sludge acidification; raw materials used as coatings and PH test strips, cotton fibers, flame retardants, resins, curing agents, pesticide intermediates and raw materials of various Sulfamic acid derivatives.</p>
