TECHINICAL DATA SHEET

| | | |
|--------------------------|--|--|
| Product Name | Ferrous Sulfate Monohydrate | |
| Synonyms | Iron Vitriol; Iron Sulfate; Ferrous Sulfate | |
| CAS No. | 13463-43-9 |  |
| Molecular Formula | FeSO₄·H₂O | |
| Molecular Weight | 169.92 | |
| Packing | 25kg or big bags | |
| Quantity | 25MT/20'FCL | |
| Specification | <p>Appearance: Light yellow to white powder or granular Purity: 97% min Fe: 31% min Pb: 0.0015% max As: 0.005% max Cd: 0.001% max Fineness: 6-14 mesh, 14-20 mesh, 12-60 mesh</p> | |
| Application | <ul style="list-style-type: none"> -FeSO₄. H₂O is a mineral additive in animal feed. -As a blood tonic substance to livestock, it can stimulate the growth of animal's body. -It can also be used to make pigment such as red ferric oxide etc. -Granule material is good fertilizer, which can effectively improve soil, move moss and lichen. -It also is used as pesticide for prevention of pathological changes of wheat and fruit tree. -Meantime, it is the catalyst making plant green and important for plant absorption. | |
